

# DAVID GILMOUR

## Remember That Night

RETAIL DVD (SONY BMG, WIDESCREEN)

This double-disc set from the Albert Hall last May perhaps contains too much of Dave's solo album *On An Island*, but it's still a must-have for Floydophiles. Exquisitely shot for Sony's Blu-Ray format, it takes you soaring through dazzling laser-barrages while the band fire up "Comfortably Numb" (guest star - David Bowie) and "Shine On You Crazy Diamond" (with Crosby and Nash). Gilmour's spacey power-blues guitar and singing voice are in splendid nick.

**EXTRAS:** On The Road and Making Of docs, videos, Mermaid Theatre gig.
