

DAVID GILMOUR

Live In Gdansk

EMI

Double live album, plus!

Gilmour fans will feast on this amazing package, with various formats

adding DVD concert footage and a documentary.

The gig recorded here took place at a Polish shipyard in 2006 to mark the birthday of that country's trade union Solidarity, and for much of it Gilmour and his band are accompanied by a symphony orchestra. Central to the show is a complete performance of Gilmour's *On An Island* album which combines laid-back tempos, atmospheric instrumentals, warm vocal melodies and the usual dazzling guitar playing. The set is bookended with a generous helping of his former band Pink Floyd classics including *Shine On You Crazy Diamond*, *Wish You Were Here*, *Echoes*, a string-laden *Comfortably Numb* and an opening selection from *Dark Side Of The Moon*.
